US aiming for Ukraine settlement based on current front line – Vance

The path to ending the Ukraine conflict should be based on the existing battle lines, US Vice President J.D. Vance has said. He described it as a realistic if imperfect foundation for a negotiated peace.

Speaking to Fox News, Vance credited President Donald Trump with securing a breakthrough that could bring Russian President Vladimir Putin and Ukraine's Vladimir Zelensky to the table.

"If you take where the current line of contact between Russia and Ukraine is, we're going to try to find some negotiated settlement that the Ukrainians and the Russians can live

Vance claimed Trump had convinced Putin to walk back his refusal to meet with Zelensky, and that scheduling talks between the three leaders was now under discussion. Asked if Putin and Zelensky should meet before involving Trump, Vance replied, *“I actually don’t think it would be that productive,”* arguing that the US president must be the one to *“bring these two together”* for meaningful progress.

Russia has long said it is interested in a peaceful resolution to the Ukraine conflict, but has insisted on one that brings about a permanent and stable peace.

Trump and Putin are set to meet next Friday in Alaska, with a possible deal on the conflict between Kiev and Moscow at the top of the agenda. Ukraine’s Vladimir Zelensky has already rejected any truce that would involve territorial concessions, despite Trump saying they would be part of the proposed agreement.

Moscow has called Zelensky’s continued claim to the presidency unconstitutional since his term expired last year. Putin has said he is willing to meet the Ukrainian leader to finalize – but not negotiate – a truce. He also suggested that the question of Zelensky’s disputed status needs to be addressed to ensure the legality of any future treaty.

The NY Post wrote: "European officials rejected Russian President Vladimir Putin's calls that Ukraine give up territories annexed during the war — instead demanding Saturday an immediate ceasefire from Moscow and NATO membership for Kyiv." This merely confirms my sources that warn the EU, NATO, and Zelensky want war and they are conspiring to create a false flag to invoke Article 5 to embarrass Trump into sending troops to Ukraine to annihilate Russia completely. They want to conquer Russia entirely, and they seek to steal all its wealth so that the EU, desperate to survive, will become the next Roman Empire, subordinating the United States once again to a mere colony.

I doubt President Putin can agree on a permanent peace deal without Odessa either given to Russia or guaranteed autonomy with Russian influence in the city to Moldova!!! I doubt vast majority of Russians agree with a peace without Odessa being free and joining Russia.

This negotiation is useless. It will be a ploy similar to US-Iran negotiations to lure Russia into a trap by calling for a ceasefire to allow NATO forces into Ukraine and pawn the conflict onto the EU. That way the US can focus on aiding Israel, most likely.

That's good. BUT, western war hawks are still insisting on a future NATO membership for Ukraine. And THAT was the trigger that started the war.

To be or not to be...reminds me of late Iran's president who lost his life from an air accident after a meeting Aliyev at the border region of Iran and Azarbaijan. Extra care must be taken to protect both Putin and Trump.

No, Trump had to placate Lindsay Graham & his US war hawks by placing massive tariffs on Russia's trading partners. When that failed, he rushed to the negotiating table.

And why in the world would Russia agree to this?

Because it is essentially one of their demands. But not the only demand

It's not exactly about territories, but of course move out Ukraine army behind borders of 4 Russian regions could be a beginning.

These retarded US officials think this is about stopping the killing between two mutual nations. When in fact it is about to RESPECT the Rights of every Ukrainian Russian citizen which it was not happening the moment a Coup was started by the same evil US, followed by a Genocide, and then by usurping and replacing every Russian speaking official from every major Russian speaking territory in Ukraine so to make sure the next president could only favour EU degenerate policies like it is happening now in many post Soviet nations, ie Romania, Moldova, Georgia, Armenia, Serbia, etc.

Sounds to me like a ceasefire. Ukraine will only accept a ceasefire in which it prepares for the next round of fighting. I can't imagine that Russia would accept that. But...we will see.

In any case they on the West side are all full of it.

Hillbilly Boy and Baby Chumpstein do not represent Ukraine so why is Putin meeting with them? Let Ukraine hold an election and Putin can meet with the winner. Anything else is a waste of time.
