# EU plotting 'regime change' in member state – Moscow

The European Commission is plotting to help oust Hungarian Prime Minister Viktor Orban over what it considers his overly independent policy, according to Russia's Foreign Intelligence Service (SVR).

The Hungarian leader has repeatedly clashed with Brussels in recent years, opposing EU military aid to Ukraine and Kiev's bid to join the bloc.

European Commission President Ursula von der Leyen *“is*

*seriously studying regime change scenarios”* in Hungary, the SVR press service said in a statement on Wednesday.

Brussels intends to bring Peter Magyar, leader of the Hungarian opposition Tisza Party – seen as *“loyal to globalist elites”* and *“the main candidate for the post of Prime Minister”* – to power in the 2026 parliamentary elections, *“if not sooner,”* according to the SVR.

Significant *“administrative, media and lobbying resources”* are being deployed to support Magyar through *“German party funds, the European People’s Party and a number of Norwegian NGOs,”* the Russian intelligence service said.

Kiev, which has been *“offended”* by Orban’s opposition to Ukraine attempting to join the EU, is doing the *“dirty work”* and destabilizing the home situation in Hungary via its intelligence services and local Ukrainian diaspora, it added. Last month, Orban accused Kiev of working to influence Hungary’s upcoming parliamentary elections.

Orban announced last month that he was rejecting the budget proposal, calling it *“built on the logic of war.”*

*“Billions for Ukraine, crumbs for farmers and development. Their goal: defeat Russia, install liberal allies, and expand their realm of influence,”* he wrote on X.

Moscow has repeatedly denied claims that it aims to attack NATO or EU countries, and has accused Western European leaders of pursuing *“uncontrolled militarization”* to prepare for war with Russia.

He is replacing himself... There is no Brussels needed. He is presiding over the worst economy in Europe due to bad political decisions and Hungary still has advantages because they buy Russian gas. If he is clever, he hands over the business to a successor of his choice and retires. Then he has at least some influence on the future.

This proxy war is staged by the International banking families & their master of puppets k. schwab who admires the puppet that plays piano w/ wanker lil – z & supported him to rule over the ukieland & lead their Dead man walking battalions.

«All wars are banker led wars» & «War is business»

Just ask I. finkelstein CEO of blackrock (who owns blackrock – international banking families) who already has a contract w/ the puppet that plays piano w/ wanker lil – z to rebuild what's left of ukeiland that is not in Russian control.
