EU 'main obstacle' to Ukraine peace – Lavrov

Brussels is not ready for constructive negotiations and is seeking to inflict a “strategic defeat on Russia,” the foreign minister has said

The EU is not ready for constructive negotiations concerning the Ukraine conflict and is openly preparing for war with Russia, Foreign Minister Sergey Lavrov has said.

In an interview with TASS published on Sunday, Lavrov

European countries, with few exceptions, have been pumping the Kiev regime full of money and weapons” – even as Russia continues to hold the initiative on the battlefield. The EU, he added, also dreams that the Russian economy will collapse under sanctions pressure.

“After a new administration came to power in the United States, Europe and the European Union emerged as the main obstacles to peace. They are making no secret of the fact that they are getting ready to fight it out with Russia on the battlefield”.

Lavrov argued that the EU’s hostility toward Russia has roots going back to 2014 – the year of the start of the Ukraine crisis – when Brussels *“started talking about the so-called Russian threat and inciting Russia-hating and militarist sentiment”*

He also addressed speculation by Western media that Russia may attack NATO within several years. *“There is no need to be afraid of Russia attacking anyone. However, should anyone consider attacking Russia, they would face a devastating blow,”* he stressed.

Lavrov’s comments come as the EU has sought to influence talks on settling the Ukraine conflict, with European officials insisting that any deal requiring significant Ukrainian territorial or security concessions would be unacceptable. Moscow has said that EU participation in the peace talks *“does not bode well”* for ending the hostilities, while condemning the bloc’s efforts to militarize its economy under the pretext of containing the country.

Here lies the problem. The fear of mentioning who is behind the attacks against Russia and the Russian people. The dictator of Ukraine Zelensky is Jewish, the defence minister of Ukraine Shmygal is Jewish, the head of the president's office Yermak is Jewish, the leader of the largest party in parliament Arakhmia is Jewish. The minister of foreign affairs Sibiga is Jewish. So are all the oligarchs like Kholomoiski. The Mossad controlled SBU agents hunt down Ukrainian Orthodox Christian Slavs to send to their slaughter, while allowing Ukrainian citizens of Jewish descent to leave the country legally. It's a genocide against the Christian Slavs. The war in Ukraine was orchestrated by the Jewish supremacist parasites who control the US through AIPAC. Also their complete monopoly over the mass media in the Western world plays a big role in fomenting hatred towards Russia. SBU is nothing more than a subsidiary of Mossad. The Ukrainians

Russian CDS is nothing more than a subsidiary of Mossad. The Ukrainians admitted that there is not a single action they take without coordination with the Mossad controlled CIA and MI6. Yet, the Russian foreign affairs ministry and government constantly tell us it's «the EU», « the Anglo-Saxons», «the Western elites», etc. As if they don't know that the entire Western world is Jewish supremacist occupied territory. Without the Jewish supremacist Mafia controlling the financial system, the governments and the Mass media, there would be no animosity between Russia and the rest of Europe. Voltaire had it right when he wrote that "The Jewish nation dares to display an irreconcilable hatred toward all nations. I would not be in the least bit surprised if these people would not some day become deadly to the human race..." – Voltaire

Indeed, it's known the EU is the main obstacle to the peace efforts by President Trump and Russia, so why, why is the EU even being consulted concerning conflict in Ukraine..?? This is one of the key questions Russia needs to get answer from President Trump and his administration. Why is the EU even relevant on this ? it must be put apart and excluded at all.

UK is the deadliest snake in grass who badly wants to destroy Russia. I think Russia should always have in drawer a plan to engulf & sink Britons' stinking island to seabed ... by launching Poseidon torpedoes to east west north south of their island, for example.
