US President Donald Trump and European leaders to ramp up sanctions against Moscow.

“Europeans still didn’t put sanctions on nuclear energy of Russians, on [the state-run energy company] Rosatom, on people, on their relatives, on their children which live in Europe, which live in the United States, which study in the universities of Europe, which have real estate in the United States,” Zelensky said.

*“So, they have a lot of real estate, they have children, relatives everywhere. F**k away to Russia. Go home,” he added.*

Zelensky’s remarks come as the US, Russia, and Ukraine prepare for a third round of three-way talks in Geneva. Moscow has condemned measures targeting Russian nationals and cultural *“cancellation”* abroad as Russophobic.

The trip also comes amid a conscription crisis and ongoing blackouts in Ukraine caused by Russian air strikes, which Russia says aim to weaken Ukraine’s defense

Zelensky's reputation has been tarnished by multiple corruption scandals involving his inner circle, prompting the resignation of two government ministers and his longtime chief of staff. On Monday, anti-corruption agencies charged former Energy Minister German Galushchenko with money laundering linked to a \$100 million kickback scheme in Ukraine's struggling energy sector.

This is the joke of a man that untold billions of American tax money has been handed to, with corruption at every turn, and zero concern for the Ukrainian people (typical actually – the «Ukrainians» are all .)

I'm guessing he thinks if he talks like Trump, Trump will like him again.
