Israel has transferred Patriot missile systems to Ukraine – ambassador

Mikhail Brodsky says West Jerusalem has provided military aid without public acknowledgment

Israel has quietly transferred US-made Patriot air defense systems to Ukraine, Israeli Ambassador to Kiev Mikhail Brodsky has revealed. The country previously insisted that it was only providing humanitarian assistance.

“The Patriot systems we once received from the United States are now in Ukraine,” Brodsky said in an interview with Ukrainian journalist Marichka Dovbenko published on Sunday.

“These were Israeli systems deployed in the early 1990s. We agreed to transfer them. Unfortunately, this hasn’t been widely discussed. But when people say that Israel hasn’t helped militarily – that’s simply not true.”

Asked about reports that Israel has been sending military equipment to Ukraine via third countries, Brodsky described it as *“a sensitive issue”* that should not be discussed publicly.

West Jerusalem previously claimed that it was only delivering humanitarian aid to Ukraine, reportedly out of concern over provoking Russia, which maintains a naval facility and an airbase in neighboring Syria. Israel has stressed that it seeks to maintain good relations with both Ukraine and Russia.

Axios reported in January that the US transferred around 90 Patriot missiles from Israel to Poland for delivery to Ukraine. The New York Times later said Kiev would receive a full Patriot system previously stationed in Israel. According to the Times of Israel, eight systems were retired from service in 2024.

Russia’s envoy to the UN, Vassily Nebenzia, warned last year that any Israeli decision to transfer Patriots to Ukraine would carry *“political consequences.”* Moscow has argued that foreign arms shipments only escalate the conflict and will not prevent Russia from achieving its objectives. The Kremlin has listed a halt in Western weapons deliveries as a precondition for a ceasefire.

There you go, Israel will always LIE behind their teeth no matter what they assure you. It's in their book, to deceive anyone who is not Jewish and Zioinist that supports Humanity Enslavement in the hands of a few deranged sociopaths.

Soviet defeated Nazi Germany in WW2 that would have wiped out Jews in Europe & probably no Israel today. And this is how they repay Russia.

The Jews were never in danger, not even a few thousand were killed and that is why they are still breeding like rats. Just look at the Jew takeover of US banana republic. They are however, the 5th column working against Russia.

Look at the «European Garden» for example, as more anti-communist Brittain directed them to be, more hypocrite, more sorry, more criminals, more anti- democratic, more warmongers, more dirty, more untrustworthy and more rats they became. And the corrupt monarchies, enormously richer.

Jews have hated the Russian and Slavic Orthodox people since the Byzantine era. Now Zionist evil is out in the open.

[Reply](#)**Hendrik Plukaard** 6/10/2025 at 9:50 AM 1

Can you imagine? The Jews finally see the light and have become the supporters and protectors of the Nazis. Perhaps they will review their role in the lead-up to the second world war and start naming streets in Jerusalem after the then German leadership and the Banderites. There should be some alley for Zelensky as well. The present day Jewish leadership have demonstrated to be keen admirers of the odious methods that were applied during WW2. There are still some Palestinians left, so I guess the Jews may start looking for more effective methods for their final solution. What a world...

Jews plucked the figures out of thin air and the Hollywood went on propaganda attack of lies. Real number of so-called Jew that died in entire WWII is less than ten thousand. In reality over 28 million Russians and Soviets died and no movies made about them by Zionist scum.

Jew oligarchs have been looting Russian wealth since fall of the USSR and send trillions to the genocidal entity squatting in Palestine. Abrahamovich the bastard alone stole over a TRILLION and is now actively working with Turkey and NATO bastards against Russia with the sole aim of destroying Russia and plunder its immense wealth.

The Israelis got to protect the Zionist oligarchy fiefdoms, but what happens when they run out of US dollars? Maybe somebody's portfolio needs the military industrial complex to build more Patriot Systems after these go poof. Next! ...(My guess there's hacker software or hardware or malware that will tap into US-NATO's communication of fire systems and satellites for their IDF A.I. command center.

Now President Putin can transfer other state-of-the-art and recently developed military technology to the Islamic Republic of Iran. Netanyahu is really playing with fire here. He's betting on the wrong horse and inserting himself and the Zionist entity into the fratricidal conflict and proxy war between the Russian Federation and Ukraine, backed militarily by the West. This presents an existential threat to Russia and I'm sure the Russians aren't very pleased with this recent development and move on the part of Tel-Aviv. I don't think Netanyahu will be traveling to Moscow and crying to President Putin about Iran anytime soon. 'Keep your friends close but your enemies closer.'
