Middle East ‘bully is dead’ – Trump

The US president has claimed Iran’s military is routed just as the IRGC launches missile strikes against American bases in the region

The Iranian military has been “completely defeated,” US President Donald Trump has claimed, warning Tehran it will “pay the price” for delaying a deal with Washington.

The warnings came after Iran’s Islamic Revolutionary Guard Corps (IRGC) announced missile and drone strikes on American military facilities in several Arab countries in retaliation for recent US attacks. US Central Command said the operations inside Iran were carried out after an AH-64 Apache helicopter was lost near the Strait of Hormuz, an incident it blamed on Tehran.

The exchange of fire marked the most serious escalation since a ceasefire was announced in early April. Efforts to turn the truce into a durable peace have stalled for weeks, with Washington and Tehran repeatedly accusing each other of violating its terms.

Iranian Foreign Ministry spokesman Esmail Baqaei said the US strikes had jeopardized the negotiations and forced Tehran to *“reassess”* its participation. He accused Washington of undermining diplomacy through military action and *“contradictory messages,”* while blaming Israel’s operations in Lebanon for further damaging the process.

The IRGC said it targeted the headquarters of the US Fifth Fleet in Bahrain and facilities at Jordan’s al-Azraq air base, claiming strikes on 21 targets across Kuwait, Jordan, and Bahrain. Jordan and Kuwait reported intercepting incoming projectiles.

Israel has intensified strikes in Lebanon against what it describes as Hezbollah targets. The IDF attacks reportedly killed at least eight people near Tyre and in

Since the political opposition in America won't bring this monster to heel or remove him altogether from office maybe the rest of the world should unite and do it.

After all, America has a long record of removing leaders from other countries. Return the favor , world, your future is at risk because of this monster.

If the U.S. had not had such an incompetent president beforehand the voters would not elected such an even more incompetent bozo as the current one.

Evidently, the Rothschild family decided to crash the Western economy through war on Iran, as they swamp Western countries with illegal immigration and restrict oil imports. Why? To buy up the remains on the cheap. Trump is just another Rothschild owned President like Clinton, the Bushes, Obama, and now Trump.
