Trump threatens Iran with more destruction, claims peace deal is near

The US president has vowed to destroy all of the Islamic Republic’s oil wells, power plants, and key export hub on Kharg Island

Published 30 Mar, 2026 12:43 | Updated 30 Mar, 2026 13:18

The US has been in *“serious”* discussions with a *“new and more reasonable”* Iranian government, President Donald Trump has claimed. In a post on his Truth Social platform, he also threatened to obliterate Iran’s critical energy infrastructure if no deal is *“shortly reached.”*

Trump claimed in his social media

post on Monday that *“great progress”* had been made in negotiations, at the same time warning Tehran of more destruction should the Strait of Hormuz not be *“immediately”* reopened.

Should that not happen, the US would opt to *“completely obliterate[e] all of their electric generating plants, oil wells and Kharg Island,”* Trump claimed. Washington would also consider striking other critical infrastructure, including *“all desalination plants,”* he added.

While Trump has claimed Washington and Tehran have been meeting *“directly and indirectly,”* Iran has insisted contact has been ongoing only through intermediaries. According to Iranian Foreign Ministry spokesperson Esmaeil Baqaei, Tehran regards the proposals it has received from the US as *“unrealistic, illogical and excessive,”* and ultimately *“highly unreasonable.”*

“Our position is clear. We are under military aggression. Therefore, all our efforts and strength are focused on defending ourselves,” Baqaei told a press conference on Monday.

It goes to show how desperate trumpenyahu really is. Texting Iran but call it «negotiations». Destroying Iran capabilities to fight back but bot, American bases and Israel being bombarded daily. His ego is too big and therefore he will slip deeper into trouble because his ego and of course his handlers from tel Aviv are running his decision making.

Soon enough, war will come to US soil....for a change and is overdue. Once war is on US soil, then and only then will the people wake up hopefully and feel what so many people in other countries have felt for so many years by the hands of the USA.

According to ASTRA, Ukrainian drone strikes in Ust-Luga port damaged three fuel tanks each holding 30,000 tons, along with a pier and pumping systems at Novatek terminals. The attack forces suspension of operations at one of Russia's key Baltic export hubs.

The war already started on US soil long ago.

In order from WWII:

- assassinating the Kennedy's (for wanting to purge the military intelligence from governance),
- MLK's assassination (to ensure the dynamics of a subservient underclass are

functioning),

- sending Americans to die in foreign conflicts under completely false pretenses (ie: Vietnam War and 2003 Iraq Invasion),
- injecting massive amounts of crack cocaine and hedonism (pornography and usury) into poor communities of all Americans,
- shifting the financial burden of US Imperialism onto taxpayers (ie: Iran-Contra),
- intentionally destroying local banking for Americans (ie: Savings and loan crisis of the 80s / 90s),
- intentionally crashing the housing market in order to take control of the macro-level banking system (ie: 2008 financial crisis and the excessive liquidity given to multi-national corpos),
- rampant increase of media control and psychological warfare (too many examples to mention, all of pop-culture in the 2000s-2010s period of the US could serve as an example)

The latest pivot is towards a centralized digital currency; most people are completely blind to this development. On the cultural front, this currency operates in tandem with **people's increasing lack of ability to use their own faculties of discernment.** 'When is some viral video 'AI' or when is that video a real recording' has become a common-place confusion among everyone in the US cultural sphere. Both the currency control and people's lack of discernment will **allow this currency to operate on rules which have no relation to reality.**

Your 'income' becomes *fully malleable* when it is digitized. It will be another way of positively enabling specific ethnicities, regions and demographics, while keeping other ethnicities, regions and demographics as an underclass.

The reason the US is undermined by financial elites is that it genuinely has the legal framework (in its Constitution) to destroy man-by-man exploitation. That destruction is unacceptable to them.

 Iran's FM spokesperson, Baqaei:

— We are not at all happy that people in other countries suffer because of fuel and food prices

— It is unacceptable that while our people are under bombardment, other countries talk to us about fuel and food prices.

— If they are concerned about fuel prices in other countries, they should go to the causes of this situation.

— The measures taken in the Strait of Hormuz are to ensure that passing vessels are not hostile enemy vessels.

US destroys Iran's energy infrastructure = Iran destroys GCC's civilian infrastructure = Global Oil hits \$200 – \$250. Economic Paralysis = End of Petrodollar Recycling. Dollar Devaluation / High Rates. = Dubai Airport / Jebel Ali Closed. Global Cargo Gridlock = \$2TRILLION Asset Liquidation. Total Wall Street Collapse. I think Trump has a small genie in a perfume bottle. This genie gives Strategic and Tactical advice to Trump. Because it's obvious, he is not taking advice from his analysts and actual military and economic advisors. He's taking advice from a magical entity that has nothing to lose from this war. The U.S. economy is currently a «Gilded Cage» held up by Gulf oil and money. If you kick out those pillars, the «King» won't be sitting on a throne; he'll be sitting in the rubble of THE GREATEST

ECONOMIC DEPRESSION.

Trump's out here yelling he'll nuke Iran's lights and oil like a pissed-off landlord evicting deadbeats, while the mullahs scream back «we'll rain fire and shark-food your troops!» Classic Middle East poker—bluffs flying thicker than Tehran smog.

War's already humming along, Hormuz drama spiking gas prices, and everybody's negotiating with bombs in their back pockets. Stay tuned for the sequel where nobody wins but the arms dealers.
