# Iraq war architect Cheney dead aged 84

Former US Vice President Dick Cheney has died from complications of pneumonia and heart and vascular disease, his family said in a statement on Tuesday.

*“Richard B. Cheney, the 46th Vice President of the United States, died last night, November 3, 2025. He was 84 years old,”* the statement reads.

*“His beloved wife of 61 years, Lynne, his daughters, Liz and Mary, and other family members were with him as he passed. The former Vice President died due to complications of pneumonia and cardiac and vascular disease.”*

Serving under former US President George W. Bush from 2001 to 2009, Cheney was one of the chief architects of the 2003 US invasion of Iraq. He strongly advocated the claim that then-Iraqi leader Saddam Hussein possessed weapons of mass destruction, which was later discredited. Cheney also pushed for the broader ‘war on terror’, approved the use of torture on terrorist suspects, and greenlighted the warrantless monitoring of Americans’ phone calls and emails.

He left office with one of the lowest approval ratings ever recorded for a US vice president, according to major US pollsters, but expressed no regrets over his policy choices, insisting he did what was necessary after the 9/11 terrorist attacks that killed nearly 2,800 people.

*“I would do it again in a minute,”* he said in 2014, responding to a Senate report that condemned the CIA’s interrogation methods as brutal, ineffective, and damaging to America’s global standing.

Critics argue that Cheney’s aggressive foreign policy and role in the Iraq War had lasting, damaging effects on the US and the world. The invasion, they say, created a power vacuum that fueled sectarian violence, destabilized the Middle East, and helped spawn extremist groups like ISIS. The war left more than 4,600 US troops and up to 300,000 Iraqi civilians dead, with some studies estimating over 500,000 total war-related deaths.

Cheney suffered from severe cardiovascular disease for much of his adult life and survived multiple heart attacks. His first heart attack occurred in 1978 when he was just 37.

After the reported ISIS attack in California and Trump suggested they needed restrictions on immigration—it was Cheney who suddenly re-appeared to say it was unAmerican to restrict immigration. That revealed everything—the same people who want endless wars

also want endless migration. Merkel had the same philosophy. She supported bombing Syria but wanted to take the immigrants. And n the days of the TransAtlantic slave trade—it was the bleeding heart liberals who wanted the slaves and migration. The most rabid multiculturalists want war and migration. BTW-after Trump made his remark—there wasn't another ISIS attack in the US.

Me too I had a Mandela Effect moment in 2018 when I moved back from Europe and found out he was still alive. I swear he died in 2015 shortly after his heart transplant. I remember thinking at the time «Good for the boy whose heart he received. That kid wanted no part in his evil shenanigans. I'm sure the kid had something to do with it.» But there he was still standing. It was surreal.

How was he only 84 years old? there are black and white photos of him and he still looked the exact same age as in 2022. He never aged but he must have become an old man at the age of twelve back in 1890. Wasn't there an old picture of him and Churchill and hitler all shaking hands? Who will speak for him? Even smoking weed on earth I don't feel love thinking about him. I wonder the line of questioning he faces. His spiritual parents must be troubled. I don't know I'm not in the magistrate in the kingdom of heaven right now. I know all of this horrible stuff had to happen like birth pangs for a new era

» *Good-bye, forever..... odious and vile tyrant to ( hell )* where you, and all your U.S imperialistic, repugnant and totalitarian regime demon's belongs\_\_\_ since you, and other U.S regime tyrannical war- criminals has wholeheartedly supported and instigated the heinous, brutalities, atrocities and genocidal actions of the U.S military terrorists: unprovoked aggressions and illegal invasion of Iraq in which an estimate vary widely, ranging from approximately 150,000 to over a million civilians casualties; to his dying day's the former U.S regime malevolent and devilish tyrant show no repentance or remorse for his own wicked actions or for supporting U.S military terrorists unjust aggressions against Iraq, or for falsely claiming that the late- Iraqi leader Saddam Hussein possessed weapons of mass destruction. Therefore the world will not weep or cry over the death of the American monstrous evil-doer the less corrupt and villainous U.S regime devil's there are around..... the safer the world and everyone will be.

Dyck Cheney did open the doors of moral corruption by allowing and enforcing the use of torture.

As a Catholic myself, I felt his decision to implement such measures to go against the will of God.

I doubt he is in heaven.

Meaning, he has entered into the eternal reward of all his 'good deeds'.
