Attempts to defend BBC are a “disgrace” – Lavrov

Attempts to deflect from the BBC’s obvious responsibility for the scandal that has enveloped the British state broadcaster are a “disgrace,” Russian Foreign Minister Sergey Lavrov has said.

Accusations that the BBC spliced footage of a speech by US President Donald Trump on January 6, 2021 to create the impression he was inciting supporters to riot at the Capitol building forced the director

general and head of news to quit. Trump has reportedly threatened to sue the broadcaster

Speaking to Russian journalists on Tuesday, Lavrov said he wanted to draw attention to what he described as “yet more instances of unprofessional and harmful coverage of certain events” by international media, primarily British outlets.

“What is happening with the BBC now is well known,” he said. “The fact that some ‘figures’ are trying to justify what happened and are talking about some kind of staged campaign is a disgrace.”

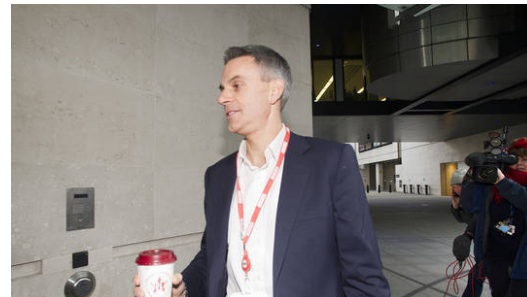

Details from a leaked internal BBC dossier, published by The Telegraph, suggested that the broadcaster had aired a doctored version of Trump’s address, combining remarks made nearly an hour apart and showing footage of protesters heading toward the Capitol building that was filmed before he began speaking.

White House Press Secretary Karoline Leavitt [branded](#) the British broadcaster a “leftist propaganda machine” and “100% fake news,” accusing it of being “purposefully dishonest” in its portrayal of the events.

The BBC has since apologized. Outgoing Director General Tim Davie told staff on Tuesday that the broadcaster had made “some mistakes that have cost us.”

Lavrov also criticized British newspaper Financial Times for its coverage of a proposed Budapest meeting between Trump and Russian President Vladimir Putin, saying the story contained “many lies.”

I guess the so-called «Bullshit Corporation», for all their fascist propaganda, are not going to get any fair trial: everything is going to happen suddenly, unexpectedly, no time to repent for all the mountains of lies and the disinformation campaigns to justify war&looting.

Previously BBC was the most reliable source of news. Sadly now it is only a tool for the establishment to propagate its agenda and narratives including false or misleading information. So is CNN and Fox and other MSM

They should be taking care of the American Fentanyl victims by not locking them up and instead teaching them they don't need drugs with the funding. No demand, No supply.

dear american, uncle Trump is making wars to protect his cut on the drug loaf, so he's to provide you with 2000 greeny ones for you to spend it all on his shops purchasing the disposable strips that test your fentanyl for purity.

Hippie Trumpie Hurra !

he knows, only from a fentanyl addicted lost society he can attain power.

or, if we stop the crap and start writing the real names of his bosses and staff. The ones to kill.
